Featured Speaker: Christine Jones PhD
Academic Soil Researcher and international Speaker from Australia

Dr. Christine Jones, is an Internationally renowned & highly respected groundcover and soils ecologist.

Presenters

To the pressing worldwide challenge of restoring topsoil, soil ecologist Dr. Christine Jones offers an accessible, inspiring perspective. Over several decades, Christine has worked with innovative farmers and ranchers to implement regenerative land management practices that enhance biodiversity, productivity, nutrient cycling, carbon sequestration, water quality and community and catchment health. Following a highly respected career in public sector R&D, she founded Amazing Carbon and organized a series of ‘Managing the Carbon Cycle’ forums to promote the benefits of soil carbon.

Christine has gained international recognition as a speaker, presenting on ‘The Fundamentals of Soil’ at workshops, field days, seminars and conferences throughout Australia, New Zealand, South Africa, Western Europe, Central America, USA and Canada. Christine is known world-wide for her soil health advocacy and informative, interactive teaching style.

Local Farmers

We have also invited five local farmers from the surrounding area to come share their expertise and experiences to round out the day.

Cameron Williams, Dan Lakey, Robert Piquet, Tyson Coles, and Rob Geisbrecht.

Marlon Winger, USDA NRCS—The tri-state Soil Health Specialist for Idaho, Wyoming and Montana, Marlon focuses on using cultural and biological means to manage soil and water resources.
